Further, it shall be ensured that no incentive is directly or indirectly received by the AIFI's employees from the TPPS Provider for marketing / sale of TPPS.*

32V. *An AIFI shall not resort to compulsory bundling of any TPPS with any of its own product / service. The mechanism may include selection of the customers on a random basis for such feedback through modes such as call-backs or surveys carried out by a department / vertical of the AIFI, not associated with sale of product / service. A half-yearly report on the findings of the feedback shall be prepared and utilised for review of existing policies and features of financial product / service.*

(3) In Annexures, the following Annexure shall be inserted, namely:

“Annex I – Illustrative List of Dark Patterns Relevant to AIFIs

*(1) **False Urgency:** Falsely stating or implying the sense of urgency or scarcity so as to mislead a user into making an immediate purchase or taking an immediate action, which may lead to a purchase.*

Illustrations:

- (i) Advertising / notifying customers that charges / fees for certain products / services will increase after a specific date, thereby pushing customers to sign up quickly without comparing with other available options.*
- (ii) Offering pre-approved loans at attractive interest rates and luring the customer that the interest rate of the loan is likely to rise if the offer is not availed.*
- (iii) Displaying countdown timers on the AIFI's website or app for promotional offers / cashback / reward points, forcing users to act fast to benefit from the deal.*
- (iv) Using phrases like ‘Act Now’, ‘Hurry’, ‘Limited Time Only’, or ‘Offer Ends Soon’ in communications, thereby, inducing a sense of urgency, leading customers to act faster than they might otherwise.*

(2) **Basket Sneaking:** Inclusion of additional items such as products / services, payments to charity or donation at the time of checkout from a platform, without the consent of the user, such that the total amount payable by the user is more than the amount payable for the product / service chosen by the user.

Provided that addition of necessary fees disclosed at the time of purchase or providing complimentary services shall not be considered as basket sneaking.

Illustration: Selecting additional products / services by default, on behalf of the customer, e.g., adding protection against online fraud / loan protection insurance by default during the loan application process.

(3) **Confirm Shaming:** Using a phrase, video, audio or any other means to create a sense of fear or shame or ridicule or guilt in the mind of the user so as to nudge the user to act in a certain way that results in the user purchasing a product / service from the platform or continuing a subscription of a service, primarily for the purpose of making commercial gains by subverting consumer choice.

Illustrations:

(i) *Displaying a message like, “Are you sure you want to miss out on exclusive offers and updates?” or “No, I prefer to stay uninformed about great deals,” while customer attempts to unsubscribe from marketing emails, implying that opting out is unwise.*

(ii) *If a customer decides against adding a service, such as protection against fraud, displaying a message like, “No, I don’t want extra security for my account,” making the customer feel irresponsible.*

(4) **Forced Action:** Forcing a user into taking an action that would require the user to buy an additional product or subscribe or sign up for an unrelated service or share personal information in order to buy or subscribe to the product / service originally intended by the user.

Illustrations:

(i) *Displaying pop-up advertisements for own or third-party products /*

services in digital channels which cannot be closed without redirection to the concerned products / services. For example, pop-up after logging in to mobile application which leads to the loan section even if the user clicks on the exit / closure button of the pop-up.

(ii) Requesting for access to personal data like contact list, camera, data storage, location, etc. without which the registration for the AIFI's services cannot be completed / the application cannot be used. However, if such request is made to ensure compliance with regulatory instructions and the same has been transparently disclosed to the customer, it shall not be construed as a forced action.

(5) Subscription Trap: *The process of -*

(i) making cancellation of a paid subscription impossible or a complex and lengthy process; or

(ii) hiding the cancellation option of a subscription; or

(iii) forcing a user to provide payment details or authorisation for auto debits for availing a free subscription; or

(iv) making the instructions related to cancellation of subscription ambiguous, latent, confusing, cumbersome.

Illustration: Making it easy for customers to sign up for a product / service (e.g., insurance product, etc.) but making the procedure for cancelling the same significantly cumbersome like not providing a direct link for cancellation, keeping the cancellation option in complex navigation requiring multiple confirmation steps.

(6) Interface Interference: *A design element that manipulates the user interface in ways that*

(i) highlights certain specific information; and

(ii) obscures other relevant information relative to the other information, to misdirect a user from taking an action as desired.

Illustrations:

(i) Displaying the preferable option for the AIFI in bright colours / bold fonts on website / mobile app.

(ii) Default choice for consent being 'Yes' in various menu options on website / mobile app.

(iii) *Embedding information related to / options on how to close account, delete personal data, etc., deep in the user interface rather than being made easily accessible.*

(7) **Bait and Switch:** *The practice of advertising a particular outcome based on the user's action but deceptively serving an alternate outcome.*

Illustration: Advertising a lower interest rate initially and charging a higher interest rate at the time of actually applying for a loan, at times accompanied by non-disclosure of processing fees and other charges upfront.

(8) **Drip Pricing:** *A practice whereby –*

- (i) elements of prices are not revealed upfront or are revealed surreptitiously within the user experience; or*
- (ii) revealing the price post-confirmation of purchase i.e., charging an amount higher than the amount disclosed at the time of checkout; or*
- (iii) a product or service is advertised as free without appropriate disclosure of the fact that the continuation of use requires in-app purchase; or*
- (iv) a user is prevented from availing a service which is already paid for unless something additional is purchased.*

Illustration: Not revealing processing fees and other charges upfront

(9) **Disguised Advertisement:** *A practice of posing, masking advertisements as other types of content such as user generated content or new articles or false advertisements, which are designed to blend in with the rest of an interface in order to trick customers into clicking on them.*

Illustrations:

- (i) Sending push notifications through mobile application or emails that appear to be urgent account alerts or important updates but, in effect, are advertisements for new services or promotions, such as, "Important: Your account might benefit from this new feature!"*
- (ii) When searching for specific features or services on website / mobile application, showing products or services beneficial to the AIFI at the top of the results.*

(10) **Nagging:** A dark pattern practice due to which a user is disrupted and annoyed by repeated and persistent interactions, in the form of requests, information, options, or interruptions, to effectuate a transaction and make some commercial gains, unless specifically permitted by the user.

Illustrations:

(i) Repeatedly asking the customer to enable non-essential cookies on website / mobile application despite the customer having refused earlier.

(ii) Inserting multiple dialogue boxes (e.g., for seeking reviews) and asking the customer to mandatorily select an option before allowing him / her to leave the application / website.

(11) **Trick Wording:** Deliberate use of confusing or vague language like confusing wording, double negatives, or other similar tricks, in order to misguide or misdirect a user from taking desired action or leading consumer to take a specific response or action.

Illustrations:

(i) Using confusing double negatives to trick users into opting for promotional emails or additional services, e.g., a checkbox that says, “Uncheck this box if you do not want to receive offers”

(ii) When adjusting privacy settings, a question like, “Do you want to disable data sharing?” with options “Enable” and “Disable” can be confusing, leading users to inadvertently enable data sharing.”
